

Meritor Part

Meritor Parts - Meritor is a leading international supplier which is proudly established on a one hundred year custom of service and quality. They concentrate on several modules, integrated systems and components to original machine makers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and believes that this energy contributes to their competitive advantage in the worldwide operations. The business values all of their clients and would like to guarantee their success while anticipating their various requirements. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred people, Meritor encourages collaboration and innovation amongst a team of experienced experts.

Meritor strongly believes in only employing future focused staff. These top-caliber individuals could rapidly get used to to changing environments and freely exhibit the level of commitment and performance necessary to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all of their staff various possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which include axles, drivelines, suspension and braking systems for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the requirements of all their worldwide engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group who is committed to ensuring optimum progress at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

They have their supplier network that is particularly located in order to support the growth of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each and every part of the business. The DFSS or likewise known as Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business processes and apply lean methods.
